Reading (15pts total) 15/15

Task – Read the following article about their favorite day of the week. After reading, continue with the reading comprehension task down-below.

My Favorite Day of the Week

Everyone has a favorite day of the week. Some people like weekdays, and other people like weekends. Every day is different, and people choose their favorites for different reasons.

Many people like Saturday because they do not have school or work. They can sleep a little longer, meet friends, play sports, go shopping, or watch a movie. Some families go to the park or have lunch together. Saturday is often a busy and fun day.

Other people like Sunday because it is usually quieter. They enjoy staying at home, reading a book, watching TV, or cooking with their family. Some people go for a walk or visit their grandparents. Sunday is also a good day to relax before Monday.

Some people like Friday the most. After school or work, they know the weekend is coming. They feel happy because they have more free time. They can make plans with their friends or family.

People have different hobbies, routines, and jobs, so their favorite day is not always the same. Every day can be special if you spend it doing something you enjoy.

Writing (20pts total)19/20

Context

Your town has received extra money to improve cultural life for residents.

The town council is considering these three options:

- Organizing more live music events
- Creating free music lessons for young people
- Building a new music studio for the community

Task

Write an email to the town council recommending one of those options.

Write between **80–120 words**.

Your email should:

- Clearly state which option you recommend
- Explain why you chose it
- Describe the benefits for local people
- Use a polite and semi-formal tone

Dear Town Council:

My name is Macarena, I'm writing because I want to give you my opinion about the options to improve cultural life for residents.

The best option will be to create free music lessons for young people. Because, in this town we don't have too many music teachers, they are busy in their full **times jobs(time jobs)** and their classes are expensive, so the young people cannot practice, and they cannot be close **of(to)** music. With these classes, they will learn new musical skills and have a good time doing something which will benefit them in their future without monetary excuses.

I will follow the decision closely.

Best regards.

Macarena
